

Important Information About Procedures for Opening a New Account

To help the government fight the funding of terrorism and money laundering activities, Federal law requires all financial institutions obtain, verify, and record information that identifies each person who opens an account.

What this means for you: When you open an account, we will ask for your name, address, date of birth, and other information that will allow us to identify you. We also ask to see your driver's license or other identifying documents.

Share Accounts

Rate Information: The dividend rate and annual percentage yields may change every quarter. We may change the dividend rate for your account as determined by the Credit Union Board of Directors.

Compounding and crediting: Dividends will be compounded every quarter. Dividends will be credited to your account every quarter.

Dividend period: For this account type, the dividend period is quarterly. For example, the beginning date of the first dividend period of the calendar year is January 1, and the ending date of such dividend period is March 31. All other dividend periods follow the same pattern of dates. The dividend declaration date is the last day of the dividend period and for the example above is March 31.

Daily balance computation method: Dividends are calculated by the daily balance method that applies a daily periodic rate to the balance in the account each day.

Accrual of dividends on non-cash deposits: Dividends will begin to accrue on the business day you place non-cash items (for example, checks) in your account.

Fees and Charges: Monthly, a fee will be assessed to accounts which maintain an average aggregate balance of less than \$500 for the previous two months. This fee will be waived if the checking account has 5 or more financial transactions (fee withdrawals or dividends are not considered financial transactions) during the month, there is an open loan on the account which is not delinquent, charged off, or in a repossession status, or the account belongs to a minor (less than age 18).

Common Features

Bylaw requirements: You must complete payment of one share in your Regular Share account as a condition of admission to membership.

Transaction limitation: We reserve the right to at any time require no less than seven days notice in writing before each withdrawal from an interest-bearing account other than a time deposit, or from any other savings account as defined by Regulation D. Cash withdrawals may also be limited according to the total cash available in the branch on any given day.

Nature of dividends: Dividends are paid from current income and available earnings, after required transfers to reserves at the end of a dividend period. (This disclosure further explains the dividend feature of your non-term share account(s)).

National Credit Union Share Insurance Fund: Member accounts in this Credit Union are federally insured by the National Credit Union Share Insurance Fund and Excess Share Insurance.

Statutory Lien: If you are in default on a financial obligation to us, federal law gives us the right to apply the balance of shares and dividends in your account(s) at the time of default to satisfy that obligation. Once you are in default, we may exercise this right without further notice to you.

Any share account will automatically be closed if the available balance remains at or below \$0 for three months or more.

Dormant Policy: An account is dormant and will be assessed a monthly fee when there have been no monetary transactions performed by the member such as deposits, withdrawals, draft clearings, loan advances or payments for one year or more. Excluded from this definition are minors' accounts (prime members under 18 years old), members who have Share Certificates, IRA's, average aggregate balance of \$2,500.00 for the last 30 days, Visa accounts serviced by MidWest America Federal Credit Union, and members who have been required to open accounts so that they could co-sign on a loan at the Credit Union.

Available Balance: When a debit card purchase or ATM withdrawal, is attempted, MWAFUCU receives an instantaneous request to authorize the transaction. This request will affect the account's available balance. The available balance is used to determine whether the account holds sufficient funds for an authorization; calculated by subtracting outstanding debit cards authorizations and holds on deposited funds from the actual balance.

Share & IRA Certificates

Maturity Notice: Your account will mature according to the term of the certificate, and it will automatically renew unless you prevent it. The new maturity will be the same term as the original term unless specified in a special certificate TIS disclosure. The dividend rate and annual percentage yield that will apply to your certificate account if it is renewed have not yet been determined. That information will be available on the renewal date. After that date, you may call the Credit Union during regular business hours at (260) 482-3334 to find out the dividend rate and annual percentage yield that will apply to your account if it is renewed.

Early withdrawal penalties: A penalty may be imposed for withdrawals before maturity:

If your account has an original maturity of 91 days or less, the penalty we may impose is the greater of:

- seven days dividends, on the amount withdrawn subject to penalty, if the withdrawal is made within the first six days after the deposit, or
- all dividends earned on the amount withdrawn subject to penalty.

If your account has an original maturity of more than 91 days but less than 24 months, the penalty we may impose will equal 90 days dividends on the amount withdrawn subject to penalty.

If your account has an original maturity of 24 months or more, the penalty we may impose will equal 180 days dividends on the amount withdrawn subject to penalty. In certain circumstances such as the death or incompetence of an owner of this account, the law permits, or in some cases requires, the waiver of the early withdrawal penalty. See your plan disclosure if this account is part of an IRA or other tax qualified plan.

Withdrawal of dividends prior to maturity: The annual percentage yield is based on an assumption that dividends will remain in the account until maturity. A withdrawal will reduce earnings.

Automatically renewable account: This account will automatically renew at maturity. You may prevent renewal if we receive written notice from you before maturity of your intention not to renew or you withdraw the funds in the account at maturity (or within the grace period mentioned below, if any). We can prevent renewal if we mail notice to you at least 30 calendar days before maturity. If either you or we prevent renewal, your funds will be placed in a dividend-bearing account.

Each renewal term will be the same as the original term, beginning on the maturity date. The dividend rate will be the same as we offer on new term share accounts on the maturity date. It will have the same term, minimum balance (if any) and other features as the original term share account.

There is a 10-day grace period following the maturity of this account during which you may transfer the funds into another MidWest America certificate without being charged an early withdrawal penalty. If you do not transfer the funds into another MidWest America certificate, you will not earn dividends during this 10-day grace period.

Funds Availability Policy (REG CC)

This disclosure describes your ability to withdraw funds at MidWest America Federal Credit Union. It only applies to the availability of funds in transaction accounts. The credit union reserves the right to delay the availability of funds deposited to accounts that are not transaction accounts for periods longer than those disclosed in this policy. Please ask us if you have a question about which accounts are affected by this policy.

1. General Policy. Our policy is to make funds from your deposits available to you on the same business day we receive your deposit. Electronic direct deposits will be available on the day we receive the deposit. Once they are available, you can withdraw the funds in cash, and we can use the funds to pay share drafts you have written. For determining the availability of your deposits, every day is a business day, except Saturdays, Sundays, and federal holidays. If you make a deposit on a business day that we are open, we will consider that day to be the day of your deposit. However, if you make a deposit on a day we are not open, the deposit will be treated as if it were made on the next business day we are open.

2. Reservation of Right to Hold. In some cases, we will not make all of the funds that you deposit by check available to you on the same business day that you make your deposit. Depending on the type of check that you deposit, funds may not be available until the second business day after the day of your deposit. However, the first \$225.00 of your deposit will be available on the same business day we receive your deposit. If we are not going to make all of the funds from

your deposit available on the same day you make your deposit, we will notify you at the time you make your deposit. If the deposit is not made directly to one of our employees, or if we decide to take this action after you have left the premises, we will mail you the notice by the next business day after we receive your deposit. If you will need the funds from a deposit right away, you should ask us when the funds would be available.

3. Holds on Other Funds. If we cash a check for you that is drawn on another financial institution, we may withhold the availability of a corresponding amount of funds that are already in your account. Those funds will be available at the time funds from the check we cashed would have been available if you had deposited it. If we accept for deposit a check that is drawn on another financial institution, we may make funds from the deposit available for withdrawal immediately but delay your availability to withdraw a corresponding amount of funds that you have on deposit in another account with us. The funds in the other account would then not be available for withdrawal until the time periods that are described elsewhere in this disclosure for the type of check that you deposited.

4. Deposits at ATM machines. Funds from any deposits (cash or checks) made at automated teller machines (ATMs) we own or operate will be available on the second business day after the day of deposit, except that the first \$225.00 of deposits will be available on the day of deposit. Funds from any deposits (cash or checks) made at ATMs we do not own or operate will have the same availability as if the machine were owned by MidWest America Federal Credit Union.

5. Longer Delays May Apply. We may delay your ability to withdraw funds deposited by check into your account an additional number of days for these reasons:

- We believe a check you deposit will not be paid,
- You deposit checks totaling more than \$5,525 on any one day,
- You re-deposit a check that has been returned unpaid,
- You have overdrawn your account repeatedly in the last six months, or
- There is an emergency, such as failure of communications or computer equipment.

We will notify you if we delay your ability to withdraw funds for any of these reasons, and we will tell you when the funds will be available. They will generally be available no later than the fifth business day after the day of your deposit.

6. Special Rules for New Accounts. If you are a new member, the following special rules will apply during the first thirty days your account is open. Deposits of traveler's checks, cash, wire transfers and electronic funds made to your account will be available on the day we receive the deposit. If you are depositing checks, funds may be available under certain conditions. If you need the funds from a deposit right away, you should ask us when the funds would be available.

7. Foreign Checks. Checks drawn on financial institutions located outside the U.S. (foreign checks) cannot be processed the same as checks drawn on U.S. financial institutions. Foreign checks are exempt from the policies outlined in this disclosure. Generally, the availability of funds for deposits of foreign checks will be delayed for the time it takes us to collect the funds from the financial institution that the check is drawn on.

8. Remote Deposit Capture (RDC). Check deposits utilizing RDC will generally be available after a two business day hold, except that the first \$225.00 will be available on the day of deposit.

In case of errors or questions about your electronic transfers, telephone us at **800-348-4738** or write us at **1104 Medical Park Drive; Fort Wayne, IN 46825** as soon as you can, if you think your statement or receipt is wrong, or if you need more information about the transfer listed on the statement or receipt.
